

## A Phased-In Approach

The Collaboration Success Program (CSP) consists of two primary phases as illustrated in this graphic:

<h3>Discovery Phase</h3>	<p><b>During the Discovery Phase, you will:</b></p> <ul style="list-style-type: none"> <li>Join the CSP Slack channels to collaborate with and get advice from program staff, other participants, alumni, software developers, and community implementers</li> <li>Attend a half-day virtual kickoff meeting to share your organization's goals and meet the experts</li> <li>Access project planning templates and self-paced, introductory IAM content from BaseCAMP</li> <li>Leverage an expansive training experience, including eight workshop registrations good for any InCommon Academy training classes and component overviews with question-and-answer opportunities</li> <li>Join exclusive bi-weekly CSP labs. Sample topics include a DevOps overview, container deployment and operational strategies, and demonstrations of InCommon solutions from our program alumni</li> </ul> <p>You'll leave the Discovery Phase with a better idea of next steps, how others are using the InCommon Trusted Access Platform, and in-depth knowledge of your chosen software components.</p>
<h3>Prototype and Plan Phase</h3>	<p><b>During the Prototype and Plan Phase, you will:</b></p>

## Collaboration Success Program

---

	<ul style="list-style-type: none"><li>• Attend a virtual workshop to review your discovery process and prototype your ideas</li><li>• Continue to learn about the InCommon Trusted Access Platform components<ul style="list-style-type: none"><li>○ Prototype your plan for the Trusted Access Platform components through a sandbox model (and build your own!)</li><li>○ Use the balance of your eight training credits</li></ul></li><li>• Attend regularly scheduled open office hours with developers and InCommon faculty for each of the software components</li><li>• Access dedicated Slack channels with developers and experts to answer <i>your</i> questions</li><li>• Work with program staff to make connections with other organizations engaged in projects like yours</li></ul>
